## **Ultimate Ping List!**

“Spread Your Content All Over The  
Blogosphere With One Click!”

The word "ping" is written in a large, blue, rounded font with a white-to-blue gradient and a drop shadow. The letter 'i' has a small blue circle above it, resembling a ping ball.

# The Ultimate Ping List

Hi, I'm Lisa Angelettie and I am an author and article marketer. It is my professional recommendation that all business owners own a blog. Not an option any longer:) The reason why is that you can write your own articles, publish them, and PING them to announcement services, directories, and other blogs with **just one click**. That's a powerful way to get the word out about your content, and a more active way instead of waiting for people to "find" your articles on the web.

When you start a Wordpress blog from scratch, it will automatically have a Ping service set up (Ping-o-matic), but that's it. That's good -- but if you use my ultimate Ping list, you should start to see more exposure, more trackbacks, and more comments on your blog articles quickly!

## How To Add Your Ping List:

1. Go to your **Wordpress Admin**
2. Click on **Settings** (in left hand column)
3. Click on **Writing**
4. **Scroll down** and you will see a section like this

### Update Services

When you publish a new post, WordPress automatically notifies the following site update services.

```
http://rpc.pingomatic.com/  
http://api.feedster.com/ping  
http://api.moreover.com/ping
```

Save Changes

5. You will **copy and paste** the entire list I have below in that box.
6. Click on **Save Changes**, and you're done.

Every time you publish a new article, Wordpress will automatically notify all the site update services on this Ping list. Enjoy!
